FS Personal Information Manager

User Guide

Table of Contents

Introduction – The FS Personal Information Manager application is used to manage your own list of TV Shows, Books, and Movies. You can use this application to easily keep track of what you have watched in one spot. You can also use this app to record future releases so you can always be on top of your favorite TV Shows, Books, and Movies.

This application was developed as a reference implementation by Frank Stadler to demonstrate the creation of a small MVC / Entity Framework application.

Audience – The technical guide is for all users of the FS Personal Information Manager application.

Getting Started – Home.   When you first open the application you will see the Home screen.

The navigation bar shown at the top of the page is available everywhere within the application and allows you to easily move to different pages.
- Home – The home link will take you back to the home page.
- TV Shows – Allows you to view, add and edit your TV Show list.
- Movies – Allows you to view, add and edit your movie list.
- Books – Allows you to view, add and edit your book list.
- Sources – The sources page allows you to keep track of the providers of your TV shows, movies, and books.
- About – Provides a brief background on the application.

The bottom of the home page also includes a dashboard of the most recently viewed book, movie, and tv show.

The first time you use the application you should follow the instructions below to set up your sources.

<u>Adding Sources</u> – Follow the steps in this procedure to easily add the list of sources you commonly use to obtain your books, tv shows, or movies. And don't worry, if you add a new source in the future you can follow these steps to add a new source down the road.
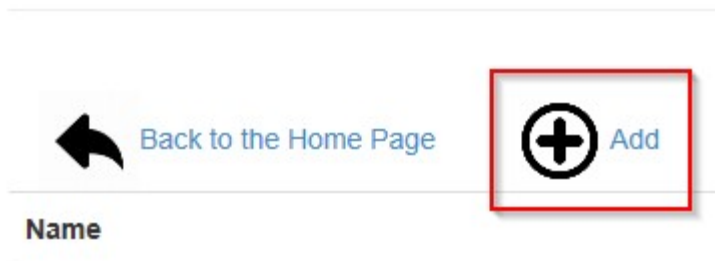

Procedure – Adding a new Source

1.   First click the 'Sources' link (left click once) found in the naviation bar at the top of the page.
2.   After you open the Sources, click the 'Add' button.

3.   On the create source screen fill in a name for the source and then click the 'Create' button.

TV Shows.   When you click the 'TV Shows' link in the top navigation ribbon, the TV Show List page will open. The page defaults to showing the most recently viewed shows at the top.

- Back to the Home Page – this link will take you back to the application's home page.
- Add – this link will allow you to add a new TV Show to your list.
- Find by Title – If you would like to search for a title within your TV Show list, enter a phrase or part of a title and click the 'Search' button. The list will be filtered down to just the TV Shows that match your search.
- Open a TV Show – You can open the TV Show details screen by clicking on the image for the TV show or by clicking the link in the title column.
- Sort by Title and View Date – You can sort ascending or descending by the view date column or the Title column.
- Paging – at the bottom of the list you will find the paging button which lets you move to the next page of TV Shows in your list.

Procedure – Adding a new TV Show

1. Click the 'Add' button on the TV Show page.

2. Complete the Add TV Show screen by filling in as much information as you would like to track including TV Show title, season, source, release date, view date, and image.
